COALITION ON HUMAN NEEDS

Voter Education for Service Providers

Midterms 2022

Dominique Espinoza
Outreach and Engagement Specialist
Vote For Human Needs Campaign

Who we are

The Coalition on Human Needs (CHN) is an alliance of national organizations working together to promote public policies which address the needs of low-income and other vulnerable populations.

NONPARTISAN MISSION

We are committed to helping low-income and historically marginalized people have access to voter education.

Disclaimer: CHN does not support or oppose any candidates or political parties.

Number of active registered voters by county:

According to the FL Division of Elections and the Census Bureau:

Duval County has a population of 999,935 people with 644,488 registered voters.

Clay County has a population of 222,361 people with 160,900 registered voters.

Nassau County has population of 94,189 people with 73,971 registered voters.

St. Johns County has a population of 292,466 people with 218,611 registered voters.

The Problem

Voter Turnout expected for 2022 Primaries in Northeast Florida counties:

Duval County 29.7%

Clay County 21%

Nassau County 34%

St Johns County 29%

The Implications

Why does low turnout matter?

Because voters elect the leaders in all levels of government that are responsible for the allocation of funds we need in order for our nonprofits to provide our services.

Many children whose families are experiencing homelessness or are food insecure rely on school lunches to get their meals. The School Board members and City Council members are the ones that help allocate funds for schools lunches and decide to include summer feeding programs, after school programs, and access to city services.

Why Should Providers Get Involved?

This is Important Work.

A vote is a vote: people experiencing homelessness' voices matter as equally as everyone else's at the polls.

Providers can engage in voter registration and get out the vote efforts, but this must be done in a non-partisan way and you must assist everyone equally.

What can you do?

The three steps to help your clients to vote:

Step 1: Get the Information and Develop a Plan

Step 2: Help Register Your Clients to Vote

Step 3: Get Out the Vote

FAQS FOR PROVIDERS

Can providers assist in voter registration?

Yes, the National Voter Registration Act encourages “all nongovernmental entities” to assist in registering their clients to vote. This includes homeless shelters, drop-in centers, food pantries, soup kitchens, day care centers, child welfare agencies, and community health centers.

Can providers register clients to vote?

You can assist another person to vote by helping them complete a registration form, but they need to sign it themselves.

How can I help my client get the required identification?

Be prepared to assist your clients to order birth certificates, solicit letter communication from government agencies, or obtain drivers’ licenses or non-driver ID cards. There may be fees attached that you should inform clients about.

FAQS FOR PROVIDERS

When registering voters who are currently homeless, what address should they provide on the registration form?

Most states allow a shelter address, a description of a general location at which the individual usually spends the night, or even a drawn map to be recorded as an address.

Can you give me some examples of what I am allowed to say while offering information to Voters?

You can say:

“You can have an impact on the decisions affecting your life. Register to vote now.”

“Potential government decisions can increase or reduce services for unhoused people and many others needing help. If you care about housing and other social services, register to vote today.”
