Housing Inventory Count

- Survey details were shared via email to agency leaders on 1/24.
- 7 agencies have responded so far, please respond this week!
- The HIC survey is an integral component of the PIT count, providing valuable insights into the current state of housing inventory and homelessness in Jacksonville and the surrounding counties.

HMIS

System Performance Measures (SPM)

REPORT PERIOD ~ February 12th to March 13th | Meeting the submission deadline is a factor considered in annual CoC Program Competition.

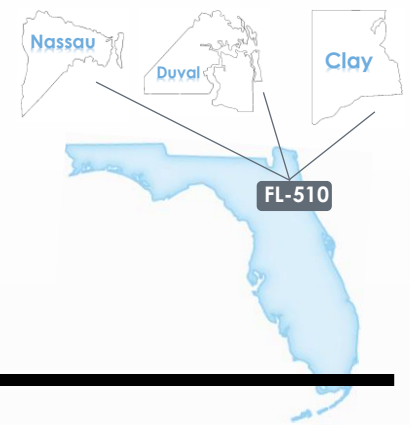

WHAT IS IT? Annual HUD report that analyzes the local homeless response as a coordinated system of homeless assistance options as opposed to homeless assistance programs and funding sources that operate independently in a community.

HUD uses this system-level performance information as a competitive element in its annual CoC Program Competition and to gauge the state of the homeless response system nationally.

Looks at various performance metrics such as:

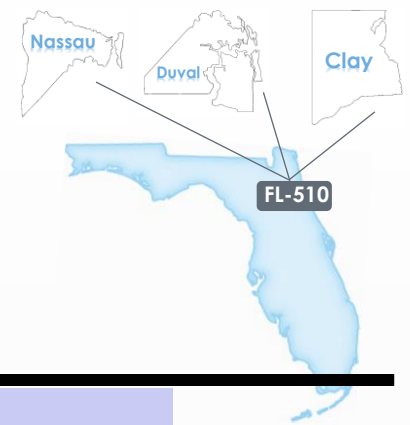

- Length of Time Homeless
- Returns to Homelessness
- Number of Homeless Persons
- Employment and Income Growth for Homeless Persons in CoC Program-funded Projects
- Number of Persons who Become Homeless for the First Time
- Successful Placement from Street Outreach and Successful Placement in or Retention of Permanent Housing

WHAT YOU CAN DO TO IMPROVE OUR DATA ~ ensure your HMIS data is up to date, clients are exited properly, and annual assessments are completed. A majority of the measures will be impacted by the completeness of those HMIS data points.
